LISTEN UP Alliant members...

we have an amazing exclusive offer for you this month!

Firstly, let us introduce ourselves…

We are Daniels Health. A company that is pretty dynamic in the healthcare waste space! We do things very differently, we believe that while a lot has changed in healthcare in the last 40 years, medical waste management has a little catching up to do… here's how we think differently:

- We offer bins and containment solutions **designed by clinicians for clinicians** for every healthcare waste stream
- We partner with you to reduce waste and associated costs – we want to have a **massive environmental impact!**
- **We play fair** – no sneaky pricing charges, contracts that are straight down the line, and scheduling only when you need it.
- We don't believe waste containers have to be ugly or a conversation about waste can't be fun. We're serving healthcare needs and doing it in our own **unique style.**
- We have 4,999 customers, we really want one more!

For any new customers that sign up with Daniels during the months October, November, December and January we are offering a free compliance package for 12 months! Usually priced at $600, this will ensure your facility is compliant and give you:

- Access to online OSHA training on bloodborne pathogens, DOT, HIPAA and Hazmat
- Safety Data Sheets and printable certificates for OSHA records
- Access to millions of MSDS and federal regulations updated weekly.

Use code **'ALLIANT600'** to redeem when you speak to one of our clinical experts today!
