

# Daniels Compliance

---

An intuitive online training and management portal that gives you the tools to be safe and compliant.

Manage OSHA compliance via an easy to use web portal

## Can you afford not to be compliant?

Experts in the regulatory complexities governing the healthcare sector, we position ourselves as an astute partner delivering expert guidance and compliant solutions to our customers.

All Daniels solutions are vetted against state and federal regulations and executed through waste plans and training to achieve optimized safety and compliance. Helping healthcare facilities nationally to mitigate fines and damages for OSHA non-compliance, **which in some cases can be up to the value of \$27,000**, we partner to minimize risk.

# Let us make it easy for you to become compliant.

Most requested and recommended courses for healthcare workers:

- 01. BLOODBORNE PATHOGENS**
- 02. DOT: REGULATED MEDICAL WASTE**
- 03. HIPAA, HITECH & OMNIBUS**

## What do we offer?

Our Compliance program offers training for all essential OSHA regulated courses for healthcare professionals. With a pay-per-user fee structure, we ensure costs are scalable to the size of your facility, and our simple-to-use online system enables you to access user data and reporting anywhere in the world.

How does the Daniels portal manage your compliance?

Dashboard to audit employees

Online user records, safety documents and printable certificates in a central location

Graphs showing compliance goals for all users and downloadable reports

Enables corrective action to be assigned to specific individuals with progress and deadlines monitored

Library access to millions of SDS and federal regulations updated weekly

Unlimited audits and safety plans

## The Essentials

### 01

#### **BLOODBORNE PATHOGENS (FOR HEALTHCARE)**

Information on bloodborne pathogens and diseases, methods used to control occupational exposure, hepatitis B vaccine, and medical evaluations and post-exposure follow-up procedures.

##### **Duration & Frequency**

45 min.

Required to be taken annually.

##### **Staff required to complete this program**

All personnel who come into contact with potentially infectious material.

### 02

#### **DOT: REGULATED MEDICAL WASTE**

Hazmat Training required for waste handlers packaging, handling, shipping, or signing hazmat shipping papers. You need this training to sign off on a waste manifest!

##### **Duration & Frequency**

2 hours.

Recommended to be taken every 3 years.

##### **Staff required to complete this program**

Required to be taken by anyone handling waste packaging, shipping, or signing of hazmat papers.

### 03

#### **HIPAA, HITECH & OMNIBUS**

Helps employees understand the new requirements on patient privacy and security.

##### **Duration & Frequency**

1 hour, 10 min.

Required within 10 days of initial hire, and recommended to be taken annually.

##### **Staff recommended to complete this program**

All healthcare personnel

## Additional Programs

---

### ▶ GHS HAZCOM

Covers the revised OSHA standard requiring the use of new GHS labeling and a standardized format for Safety Data Sheets (SDSs), formerly known as, Material Safety Data Sheets (MSDSs).

**Duration & Frequency :** 1 hour. Required at initial hire, and recommended to be taken annually or when a new physical or health hazard is introduced.

**Staff recommended to complete this program :** All employees who are exposed.

### ▶ HAND HYGIENE FOR HEALTHCARE

This training helps employees understand the importance of proper hand hygiene, and provides guidance on which hand hygiene protocol is best for their work environment.

**Duration & Frequency :** 20 minutes. We recommend this course be taken annually.

**Staff recommended to complete this program :** All healthcare personnel.

### ▶ FIRE SAFETY

Fire safety training looks at how fires start, reviews steps that can be taken to help prevent fires and outlines what employees should do in case of a fire emergency.

**Duration & Frequency :** 30 minutes. We recommend this course be taken annually.

**Staff recommended to complete this program :** All healthcare personnel at initial hire.

### ▶ ELECTRICAL SAFETY

This training outlines electrical safety requirements in healthcare settings and walks through what checks should be done and actions carried out to ensure the safety of employees.

**Duration & Frequency :** 30 minutes. We recommend this course be taken annually.

**Staff recommended to complete this program :** All healthcare personnel.

### ▶ PPE

Training on how to properly use and dispose of personal protective equipment.

**Duration & Frequency :** Approximately 25 minutes. We recommend this course be taken at orientation and as needed.

**Staff recommended to complete this program :** All healthcare personnel.

### ▶ SHARPS SAFETY

This training covers the nature of sharps injuries, the risks of exposure to bloodborne pathogens, how and where injuries occur, describes the types of engineered sharps injury prevention devices, and discusses safe work practices to prevent sharps injuries.

**Duration & Frequency :** 19 minutes. We recommend this course be taken annually.

**Staff recommended to complete this program :** Healthcare personnel taking BBP.

Serving acute and non acute healthcare facilities across the United States, we pride ourselves on providing a partnership rather than just a service.
