

## PLANT OPERATOR – WASHSMART: Job Description

Our Washsmart Plant Operator is an operational role on site at a Daniels' medical waste treatment facility responsible for running our automated Washsmart system. Our Washsmart system mechanically opens our medical waste containers and the operator manages the sanitization process ensuring all containers are quality inspected, buffed and staged for transportation to a healthcare facility. This can also involve manual hand washing using a high pressure power hose.

### WHAT YOUR JOB WILL INVOLVE:

- ✓ Manual handling and labor-related activities
- ✓ Handling 45 pounds & operating machinery
- ✓ Managing a 10-point quality inspection of emptied medical containers for re-use
- ✓ Managing inventory per manifests for delivery drivers
- ✓ Troubleshooting the robotic washline
- ✓ Being cross-trained to manage our autoclave for waste treatment
- ✓ Adhering to safety codes and conduct

### SO, WHAT ARE WE LOOKING FOR?

Someone with a can-do attitude who is committed to efficient, timely scheduling that has previous experience in a labor-intensive job. A person that we can rely on to ascend and become one of the leaders on our production team.

Delivering an integral service to healthcare, Daniels is a fast-growing company offering full time roles that provide benefits, sick leave and vacation leave from day one. As a company we highly value our people and strive to create a strong culture that drives teamwork and personal fulfillment. We are looking for an individual that is committed to supporting team goals.

### WHO ARE WE? WHY WOULD YOU WANT TO JOIN US?

We are a healthcare service company providing safety systems and medical waste collection for hospitals, medical centers, surgical centers, nursing homes and an array of customers within the healthcare setting. Our focus is delivering quality and safety-focused medical waste management services that reduce needlestick injuries, positively impact infection control and reduce environmental burden. As a service to our customers we dispose and treat medical waste on site at our treatment facilities across the U.S.
