

Medical Waste Management

Healthcare solutions designed to **protect people, reduce landfill and ensure compliance.**

Daniels Health specialize in customized waste solutions that align efficiency with sustainability, and put safety above the bottom line. We partner with you to **Make Healthcare Safer.**

OUR SUPPLY PARTNERS

MEDISMART REUSABLE CONTAINER

- Dramatically improves segregation
- Reduces infection risk
- Inbuilt secure locking systems
- Safe foot-pedal operation
- Leakproof body and lid seal

MEDISMART REUSABLE CONTAINER

H: 27" x W: 16" x D: 14"
Nominal capacity: 16.9 gal
Effective capacity: 14.8 gal

OTHER REUSABLE SOLUTIONS

MEDICAL WASTE REUSABLE TUB
H: 23" x W: 19" x D: 19"
Capacity: 28 gal

MEDICAL WASTE REUSABLE TUB
H: 32" x W: 19" x D: 19"
Capacity: 38 gal

Daniels Health

OUR VALUE OFFERING

SAFETY

Safety sits in the very center of Daniels Health' vision. Evidenced in multiple case studies, Daniels Health products and services are proven to dramatically reduce needlestick injury rates, minimize infection transfer through waste handling, and substantially improve the risk profile of all organizations that generate and handle healthcare waste.

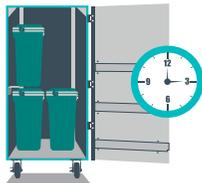

SUSTAINABILITY

Our composite solutions; products, service, training and processing, together achieve the highest standards of sustainability and carbon emission reductions in the industry. Choosing reusable products to reduce our environmental impact, placing segregation at the forefront of our training, and pioneering washing methods that are proven to achieve the highest levels of microbiological efficacy, Daniels has taken the greening of healthcare waste to the next level.

EFFICIENCY

Daniels Health optimizes the efficiencies of environments through process reengineering, redefined waste handling methodologies, and the provision of smart interchangeable logistical solutions to significantly improve the day-to-day efficiencies of managing multiple waste streams. Our unique tracking technology provides intelligence on the movement of waste whilst concurrently improving segregation and reducing waste volumes.

COMPLIANCE

Understanding the complexities of local, regional and national regulations, Daniels Health positions itself as an astute partner in delivering reliable guidance and compliant waste segregation and management solutions. Our operational and compliance team ensures that each healthcare facility we work with is fully compliant to all local and federally mandated regulations, working with you to mitigate the risk of fines and infringement penalties.

EDUCATION

Knowing that each person learns differently and no two healthcare settings are the same; our education solutions are designed as an interchangeable, customizable offering - delivering results through a tailored approach. Our safety-led blended learning solutions serve not only to impart knowledge but also to inspire conscious and actionable disciplines in day-to-day practice.
