13L x 17.3W x 10.8H

18 Gallon Tub

Duo Port, 62lb capacity.

Dimensions:

13L x 17.3W x 24.6H

Our containers have a hermetic glue based technology that permanently adheres the lid to the container, 100% better than the traditional rubber gaskets on other PG-II containers. The containers have a hinged lid system that is preferred by clinical staff that is easier to dispose of large volumes while keeping lid connected to the container. The containers are leak proof and tamper proof – not just leak resistant and tamper resistant like the competition. The containers are environmentally friendly because they burn clean without any toxic or harmful gas emissions.

HAZARDOUS WASTE DRUMS

- 15 gallon closed head plastic 15 gallon open head plastic
- 30 gallon closed head metal 30 gallon open head meal
- 55 gallon open head metal 55 gallon closed head metal.
