## How To Use Your Secure a Sharp

## SAFELY LOCATE YOUR SECURE A SHARP CONTAINER:

When activating a sharp, ensure it is in close proximity to a sharps container.

Safely dispose of sharp into the Secure a Sharp container, ensuring your hand is outside of the container at all times.

When sharps reach the top of the label, it's time to close the container and replace!

When the container is full, tighten cap securely to the left aligning the triangle shape on the lid to the "locked" position. Safely dispose of locked container into a regulated medical waste bin.

## CORRECT DISPOSAL

SECURE

SECURE

To ensure your safety in the disposal of medical sharps:

- Do not remove or recap needles
- Do not force sharps into, or overfill the container
- Do not put fingers inside the container
