

Secure a Sharp Container Use Instructions

STEP 1: DISPOSING OF SHARPS

Remove a sharps container from the box and place it in a secure location for accessible sharps disposal. Open the container cap and place sharps into the opening.

STEP 2: ONCE CONTAINER IS FULL

Once sharps reach the fill line, turn the container cap to the locked position. In this position the container can no longer be opened. Do not overfill the container.

STEP 3: DISPOSAL

Locked containers must be disposed of in a medical waste box, tote or bin for scheduled collection by Daniels Health or alternate medical waste vendor.

STEP 4: BIN PREPARATION

Medical waste bins must be secured (boxes sealed, totes and bin lids fully closed) for your waste vendor to collect and process.

ADDITIONAL INFORMATION:

- Do not place mercury, lead-containing devices, drugs, or chemotherapeutic agents into the container or return box. Containers are for sharps only.

MAXIMUM GROSS MASS:

SS4

SS2
