☎ 855 251 2655

We don't expect you to become an expert on healthcare waste — let us worry about that.

We offer VMG members a healthcare waste consultation so we can truly understand your needs and provide you with clear direction on compatible waste containment, service frequencies and safety education.

VMG members who complete a waste consultation with us and receive a quote for services will **receive (10) free compliance trainings.***

Possible trainings include: Bloodborne Pathogens, HIPPA, Sharps Safety, and more!

*If you do not choose to sign with Daniels for services, the (10) trainings must be completed within a month of the date quoted. Offer valid for limited time only.

Providing National **Healthcare Waste Management Solutions**

-  Areas where premium reusable containers are available
-  Our plants & transfer stations
